-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group A, claim(s) 58-64 and 76-91, drawn to a removable element with a cutting sleeve and a biopsy needle.

Group B, claim(s) 66-68 and 98-100, drawn to the relationships of various housing segments.

Group C, claim(s) 65, 69-75 and 92-96, drawn to electronics and the user interface, including a control panel and keys.

2. The inventions listed as Groups A-C do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: United States Patent 4989614 (Deijter, Jr et al.) discloses a biopsy device for tissue collection, comprising: a housing (casing 1 Figure 13) containing a power source (battery 92 (not shown) in chamber 90 Figure 13); and a removable element (disposable syringe assembly Column 4 lines 8-10), comprising a biopsy needle module (needle 2 Figure 13) and a pressure source (syringe 4 and plunger 5 Figure 13), wherein the removable element is configured for integration into the housing (Figure 13 illustrates the removable element integrated into the housing); wherein the biopsy device can be held in a single hand of a physician, having no cables or lines extending from the housing to external units (Figure 13); as such, there is lack of unity a posteriori as this group of features (in Applicant's claim 57) is not a technical feature that defines a contribution over the prior art.

3. A telephone call was made to David Laub on 1 December 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to EMILY M. LLOYD whose telephone number is (571)272-2951. The examiner can normally be reached on Monday through Friday 8:30 AM - 5 PM.
